

Why **Wavecrest®** Five Good Reasons

Industry Leader – Stability, Experience, and Knowledge

- In business since 1996 with steady growth and success.
- Prestigious clients such as USPS Office of Inspector General, Chevron, and John Hopkins.
- Global presence with customers spanning six continents.

The Right Focus – Concentrating on User Behavior

- Emphasis on human Internet activity while ensuring network security.
- Customizable reporting and filtering that support your usage policy.
- Reports that accurately depict users' Internet activity patterns.
- Covers contemporary usage challenges such as cloud services, Bring-Your-Own-Device (BYOD), and guest Wi-Fi environments.

Best-of-Breed Products – Visibility, Compliance, Security, and Productivity

- More accurate, actionable, forensic-level detail reports, easy-to-use charts, real-time monitoring tools, and detection of anomalies.
- Comply with regulations, such as CIPA and HIPAA, and your company AUP.
- Identify potential insider threat behavior, inspect HTTPS, protect against cyber threats, reduce risk of data loss, and assess trends for data breach exposure.
- Observe patterns for lost productivity, view time online, and pinpoint bandwidth hogs.

Exceptional Support – Dedicated, Effective, and Responsive Support

- U.S.-based Wavecrest Technical Support by phone, live chat, WebEx, and e-mail, from evaluation to end of license subscription.
- Personalized OtherWise Program that maximizes number and percentage of identifiable and categorized Web sites.
- Regular product upgrades, list updates, and more at no additional cost.

Best Value – Outperforming Competitors in Key Areas

- Friendly and experienced U.S.-based Technical Support.
- IT-friendly design that is easily integrated and highly scalable, with specific features for stress-free manager access.
- Product selections to support any business size, type, configuration, and budget.

Since 1996, Wavecrest Computing has provided business and government clients with reliable, accurate employee Web-access security, monitoring, and analytics solutions. IT specialists, HR professionals, and business managers trust Wavecrest's Cyfin and CyBlock products to manage employee Internet usage with today's distributed workforce in mind—monitoring VPN use, following roaming and remote users, managing and monitoring Web usage for hybrid work environments, comprehensive reporting on Microsoft 365 use, and more. Focused on our customer's needs—reducing liability risks, improving productivity, managing cloud services, saving bandwidth, and controlling costs. Wavecrest has clients worldwide, including Canadian National Railway, Johns Hopkins, Goodyear, USPS Office of Inspector General, Chevron, Health Choice Network, and a growing list of enterprises and government agencies.
